

A BOUTIQUE BUSINESS LAW FIRM

LINDEN SEGAL

Linden Segal is a boutique business law firm that helps our clients effectively navigate every stage of the business life cycle. We view our representations as relationships, not just transactions. Our clients consistently appreciate our dedication to delivering exceptional outcomes tailored to their specific business and objectives.

Like us, our clients are often entrepreneurs. They are companies, startup founders, investors and executives from a variety of industries. All have a vision for their business success, and we help them achieve that success.

We can manage the most challenging and complex deals and issues, but we also keep the simple things simple. We understand the pro-

cess associated with taking calculated business risks and the importance of embracing them to help our clients achieve maximum efficiencies and economic outcomes.

As business and transactional law specialists, we offer extensive experience in all aspects of corporate law, emerging companies, joint ventures, and across a variety of M&A, venture capital, private equity, and securities transactions. We also prepare and negotiate all types of commercial contracts, partnership and operating agreements, technology agreements, employment agreements, equity plans, and corporate governance matters.

If you are interested in growing, owning or investing in a business, Linden Segal can help.
